

Gift boxes

Time to make

Difficulty level

Pritt Craft-It is a comprehensive range of adhesives developed specifically for craft projects. Let your imagination run wild and your creative juices flow with the help of Pritt Craft-It. Have Fun!

What you will need:

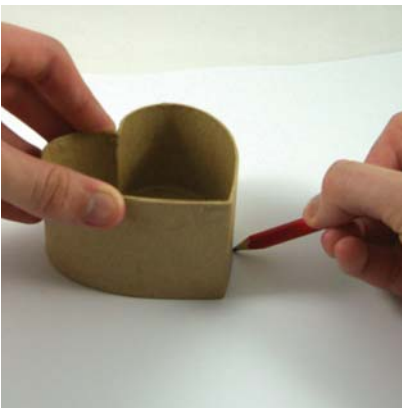

Pritt products

- Glue Gun and Sticks
- Permanent Glue Dots
- Permanent Glue Roller
- Power Stick

Materials

- Gift boxes
- Wrapping paper
- Love heart sweets
- Other coloured candy sweets
- Clear varnish paint brush
- Tweezers

1. Cut the wrapping paper to the correct size to cover the body and lid of the gift boxes. Wrap them separately otherwise you will be unable to open them.
2. Using the power stick glue the paper to the box. If the chosen boxes are an unusual shape, eg: heart shaped, trace around the lid and base, sticking these cut outs to the top and bottom of the box will cover any messy edges.
3. Attach the gift ribbon around the body and lid to give the effect of a mini present using the permanent glue roller.
4. Varnish the love hearts/sweets and leave to dry.

5. Once dried pick the sweets and either stick individually with the permanent glue dots or to create a layered effect use the glue gun.

Handy Tips

- **Chocolate doesn't varnish well so stick to hard sweets.**
- **When using the glue gun to attach the sweets use tweezers to hold the sweet so you don't get hot glue on your fingers.**
- **Varnish sweets before putting onto boxes it makes it a lot easier.**
